Projects

E-book Management System

04/2024 - Present,

Key features

- In this project we have 2 roles Admin and Customers.
- Admin can manage the book details like providing the price for book, acknowledge the orders, adding or update the books etc.
- Customers can login and buy the books. He can see all the ordered books and status.
- As per the initial version we supported only for Cash on Delivery.
- We have customer support functionality for any user queries.
- Author Bio: Include a brief bio about the author to establish credibility and connect with readers.
